19	How did NVIDIA's Data Center revenue change over the last three fiscal years?	NVDA 2023: **15,005** USD millions NVDA 2024: **47,525** USD millions NVDA 2025: **115,186** USD millions
20	How much did Amazon spend on technology and infrastructure in 2025?	**108,521** USD millions
grounding (13)		
21	What risks does Microsoft identify regarding its dependence on cloud infrastructure and data centers?	Our datacenters depend on the availability of permitted and buildable land, predictable energy, networking supplies, and servers, including graphics processing units and other components.; There are limited suppliers for certain device and datacenter components.; The investments we are making in cloud and AI infrastructure and devices will continue to increase our operating costs and may decrease our operating margins.
22	What does NVIDIA say about the risks from U.S. export controls?	Export controls could disrupt our supply chain and distribution channels, negatively impacting our ability to serve demand, including in markets outside China and for our gaming products.; Reduced demand due to export controls could also lead to excess inventory or cause us to incur related supply charges.
23	How could tariffs and trade restrictions affect Apple's business?	Restrictions on international trade, such as tariffs and other controls on imports or exports of goods, technology or data, can materially adversely affect the Company’s business and supply chain.; Beginning in the second quarter of 2025, new tariffs were announced on imports to the U.S.
24	What risks does Microsoft see in developing and deploying AI?	AI algorithms or training methodologies may be flawed.; Content generated by AI systems may be offensive, illegal, inaccurate, or otherwise harmful.

#	Question	Expected answer
25	Why did Apple's products gross margin percentage change in fiscal 2025?	Products gross margin percentage decreased during 2025 compared to 2024 primarily due to a different mix of products and tariff costs, partially offset by other favorable costs.
26	How fast did AWS sales grow in 2025, and what drove the growth?	AWS sales increased 20% in 2025, compared to the prior year. The sales growth primarily reflects increased customer usage, partially offset by pricing changes primarily driven by long-term customer contracts.
27	Which company says its Data Center revenue in China remains well below levels seen before U.S. export controls?	Our Data Center revenue in China grew in fiscal year 2025. As a percentage of total Data Center revenue, it remains well below levels seen prior to the onset of export controls in October 2023.
28	Whose cloud services revenue grew 34% in fiscal 2025?	Azure and other cloud services revenue grew 34% driven by demand for our portfolio of services.
29	Which company says tariff costs lowered its products gross margin percentage in 2025?	Products gross margin percentage decreased during 2025 compared to 2024 primarily due to a different mix of products and tariff costs, partially offset by other favorable costs.
30	Which company's Greater China net sales fell in 2025 because of lower iPhone sales?	Greater China net sales decreased during 2025 compared to 2024 primarily due to lower net sales of iPhone, partially offset by higher net sales of Mac.
31	Which company repurchased 310 million shares of its common stock in fiscal 2025?	In fiscal year 2025, we repurchased 310 million shares of our common stock for $34.0 billion.
32	Why did Apple's Services net sales increase in 2025?	Services net sales increased during 2025 compared to 2024 primarily due to higher net sales from advertising, the App Store and cloud services.
33	What drove NVIDIA's Data Center revenue growth in fiscal 2025?	Data Center revenue for fiscal year 2025 was up 142% from a year ago. The strong year-on-year growth was driven by demand for our Hopper architecture accelerated computing platform used for large language models, recommendation engines, and generative AI applications.
multi_document (13)		
34	Which spent the most on research and development in fiscal 2025: Apple, Microsoft or NVIDIA?	AAPL 2025: **34,550** USD millions MSFT 2025: **32,488** USD millions NVDA 2025: **12,914** USD millions
35	Compare the net income of Apple, Amazon, Microsoft and NVIDIA in fiscal 2025.	AAPL 2025: **112,010** USD millions AMZN 2025: **77,670** USD millions MSFT 2025: **101,832** USD millions NVDA 2025: **72,880** USD millions
36	How did Apple's, Amazon's, Microsoft's and NVIDIA's capital expenditures compare in fiscal 2025?	AAPL 2025: **-12,715** USD millions AMZN 2025: **-131,819** USD millions MSFT 2025: **-64,551** USD millions NVDA 2025: **-3,236** USD millions
37	Did Apple or Microsoft report higher operating income in fiscal 2025?	AAPL 2025: **133,050** USD millions MSFT 2025: **128,528** USD millions
38	Which had more total assets at the end of fiscal 2025, Amazon or Microsoft?	AMZN 2025: **818,042** USD millions MSFT 2025: **619,003** USD millions
39	How many employees did Apple, Amazon, Microsoft and NVIDIA each report at the end of fiscal 2025?	AAPL 2025: **166,000** count AMZN 2025: **1,576,000** count MSFT 2025: **228,000** count NVDA 2025: **36,000** count
40	Compare the diluted earnings per share of Apple, Microsoft and NVIDIA for fiscal 2025.	AAPL 2025: **7.46** USD MSFT 2025: **13.64** USD NVDA 2025: **2.94** USD
41	How do Apple, Amazon, Microsoft and NVIDIA each describe the risk of security breaches or cyberattacks?	Losses or unauthorized access to or releases of confidential information, including personal information, could subject the Company to significant reputational, financial, legal and operational consequences.; We Could Be Harmed by Data Loss or Other Security Incidents; Inadequate account security or organizational security practices, including those of companies we have acquired or those of the third parties we utilize, have resulted and may result in unauthorized access to our systems and data, including customer systems and data.; Product, system security, and data protection incidents or breaches, as well as cyber-attacks, could disrupt our operations, reduce our expected revenue, increase our expenses, and significantly harm our business and reputation.
42	What supply-chain risks do Apple and NVIDIA describe in their latest 10-Ks?	The Company depends on component and product manufacturing and logistical services provided by outsourcing partners, many of which are located outside of the U.S.; Dependency on third-party suppliers and their technology to manufacture, assemble, test, or package our products reduces our control over product quantity and quality, manufacturing yields, and product delivery schedules and could harm our business.
43	How fast did Microsoft's and NVIDIA's revenue grow in fiscal 2025?	Revenue increased $36.6 billion or 15% with growth across each of our segments.; Revenue for fiscal year 2025 was $130.5 billion, up 114% from a year ago.

#	Question	Expected answer
44	Which of the companies covered reported the highest revenue in fiscal 2025?	AAPL 2025: **416,161** USD millions AMZN 2025: **716,924** USD millions MSFT 2025: **281,724** USD millions NVDA 2025: **130,497** USD millions
45	Which company spent the most on property and equipment in fiscal 2025?	AAPL 2025: **-12,715** USD millions AMZN 2025: **-131,819** USD millions MSFT 2025: **-64,551** USD millions NVDA 2025: **-3,236** USD millions
